We hope this will stimulate a greater interest in the beginnings of the City of Vancouver and will benefit those who are researching to gain a better understanding of our history. Although we have done our best to ensure accuracy, the original documents are faded and in handwriting that is difficult to read.*

That the following Memorial be addressed to the Hon., the Minister of Public Works of Canada.

The petition of the Corporation of the City of Vancouver sheweth as follows:-

That within a few miles in a direct line from the City of Vancouver lies the Municipality of Richmond in the district of New Westminster and same is the nearest land to said City brought

under cultivation.

That the present means of communication between said Municipality and this City more than doubles the distance between them and increases the cost of produce brought from there to Vancouver.

[vol 2 page 218]

That an arrangement has been made between the said Municipality the Government of British Columbia the Canadian Pacific R. Co., and your petitioners to construct a direct route between this City and said Municipality.

That in order to construct said route it will be necessary to bridge the North Arms of the Fraser River from the Mainland to Sea Island and from Sea Island to Lulu Island and it is the intention of the Local Government and Said Municipality to erect Draw Bridges across said Arms if permission to do so be given by the Department of Public Works.

That if permission be given to construct said draw Bridges they will be no obstruction to navigation and will be a great boon not only to the Citizens of Richmond and the City of Vancouver but will materially assist in developing and setting the intervening Country now in a State of Nature.

Your petitioners therefore pray that said permission be granted. Carried.
