

The Early Vancouver Transcription Project is a project of the Global Civic Policy Society and its President, Sam Sullivan, former Vancouver Mayor. We hope this will stimulate a greater interest in the beginnings of the City of Vancouver and will benefit those who are researching to gain a better understanding of our history. Although we have done our best to ensure accuracy, the original documents are faded and in handwriting that is difficult to read.

Omitted by oversight:

A General Appeal was made by Messrs. Angus & Smith against the Assessment of 1886 on the Ground that they had already paid taxes for the current year on the property assessed to them. The applicants stated that said appeal would not be pressed if the Council did not levy a rate of taxation for 1886. The Court of Revision resolved to recommend to Council that they forego the right to levy a rate and that the necessary expenditure should be met by a loan under By-law.
